

F.O.C.A.'S CATS FOR SENIORS

FREE or DISCOUNTED Companionship

According to the National Coalition on Aging, animals help seniors fight social isolation and reduce anxiety. Pet ownership also prevents heart disease while a cat's purr has a frequency loud enough that it heals bones & muscles!

How the Program Works:

- Be 60 years or older & earn less than \$1600 a month
- Name a pet caregiver in case of illness or emergency
- Allow a home visit to ensure a safe, loving, cat-friendly environment
- Let us match you with a list of possible adult cats to fit your particular needs

Note: Discounts are available for those over 60 years old earning more than \$1600 monthly
